

Install actuators anywhere, on any ball valve.

The M9000-700 Universal Ball Valve Linkage Kit makes it easy for you to retrofit actuators in any application, no matter the brand of ball valve. Assembly is easy with no special tools required. This new linkage kit is designed specifically for field mounting Johnson Controls VA9203 and VA9208 Series Spring Return and VA9104 and VA9310 Series Non-Spring Return Actuators to ball valves from various manufacturers in sizes from 1/2 inch to 2 inches.

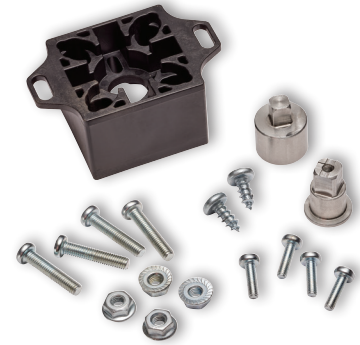

M9000-700 Universal Ball Valve Linkage Kit

M9000-700 UNIVERSAL BALL VALVE LINKAGE KIT

Features

- A sturdy zinc-plated steel shaft and connector provides strength and stability at high torques on valves from ½ inch up to 2 inches.
- A glass-reinforced thermoplastic resin spacer is suitable for use in other environmental air space (plenums).
- A spacer also reduces temperature and condensation from the valve to the actuator.
- No special tools are required for its installation.
- The kit is tested to 100,000 full cycles on valves from ½ inch to 2 inches.

The modular design of the shaft and actuator allows universal use on:

- Belimo – B2 and B3 Series, PICCV Series
- Bray Commercial – ST Series
- Griswold Controls – Unimizer Series
- Honeywell – VBN Series
- Schneider Electric – VBB/VBS Series
- Siemens – 599 Series

M9000-700 UNIVERSAL BALL VALVE LINKAGE KIT

Suitable Johnson Controls Actuators	VA9203 Series Spring Return Actuators VA9208 Series Spring Return Actuators VA9104 Series Non-Spring Return Actuators VA9310 Series Non-Spring Return Actuators
Suitable Valves	See relevant selection charts
Minimum Fluid Temperature Limits	-22° F (-30°C)
Maximum Fluid Temperature Limits	284° F (140°C)
Minimum Ambient Operating Temperature	-4° F (20°C)
Maximum Ambient Operating Temperature	140° F (60°C) 90% RH maximum, non-condensing
Minimum Ambient Storage Temperature	-40° F (-40°C)
Maximum Ambient Storage Temperature	185° F (85° C) 95% RH maximum, non-condensing
Material	Spacer: Glass-reinforced thermoplastic resin Shaft: 12L15 steel zinc-plated Connector: 12L15 steel zinc-plated
Shipping Weight	0.4 lbs (0.2kg)
